

CHARITY FUND SOCIAL

CFS started as a meme, inspired by our philanthropic community who are at the forefront of the crypto revolution. The events that took place after our founding saw the formation of a community towards decentralization, from owner to single-digit plan that is constantly increasing. In 2021, the fight against a global pandemic has forced the world to embrace digital initiatives on a parabolic trajectory.

Today, CFS aims to tap into our opportunity for self-reflection and translate this into philanthropic activities that can help make the world a better place. Built on top of the BSC token ecosystem, corporate social responsibility is integral to the identity of Charity Fund Social. For this reason, various PhD students have gathered after us

- multi-channel influencers, private individuals who want to support charities.

CFS's boldest goal is to alleviate the suffering of millions through charitable donations.

This starts by engaging in productive discussions with charities and educating them on the crypto space, providing them with a bridge to real-world philanthropic efforts. to embrace the digital world of cryptocurrencies. We are on track to establish this with organizations such as the United Nations World Food Program, Action Against Hunger, the Big Green Foundation, as well as charities that will be supported by the community. choose as we mature in time.

Core Values

Charity

We can make a real impact for the greater good, not just ourselves. By donating to charity, we remind ourselves of our duty to make this world a better place for everyone.

Community

Founded by the community and for the community, we take pride in our collective mission. We support each other and other communities, and we have fun doing it.

Clarity

We share transparent information with each other and the community. We are organized, cohesive, and all push in the same direction.

Sustainability

The future is coming, and we're ready for it. We make every decision with consideration for its ripple effects, and we are committed to a long-term vision.

High-Level Roadmap

Sustainable Operations Management (SOM) is mirrored in one of CFS's core values. Building on this pillar, the leadership team will be executing our long-term vision through the strength of the team and our community.

From the high-level and condensed goals outlined below, various action items (with a focus on Q1 and Q2 goals) are currently being addressed by our dedicated working groups. We believe that the community will perpetually do what is best for the team and the team will do what is best for CFS.

Q3, 2021 Overview

- » Launch of our website and social media channels
- » Creation of an overarching marketing strategy; multiple partnerships with high-profile personnel forged
- » Establishment of our community's Corporate Social Responsibility: commitment to support the UN WFP, Action Against Hunger, as well as the Big Green Organization
- » Art development for NFT drops

Q4, 2021 Status

The CFS leadership team is proud to announce that we have tremendously progressed since our community's inception. From a governance structure that self-organized based on competencies, we now have dedicated groups working on areas like Charity and Accounting, Engineering and Logistics, Platform Security, Marketing and PR, as well as Community and Brand Management. Our teams are constantly expanding, and everyone's participation is welcome.

In order to ensure that our operations are sustainable, our overarching initiatives are being addressed in a pragmatic approach. For our Q3, 2021 goals:

1. Our website is constantly being updated by a team of dedicated and talented designers. Further details about re-branding activities will be communicated across our channels.
2. All Marketing and PR activities are now operating under a working organization vetted by our lead developer. Our team is constantly evolving to recruit dedicated marketers to help us scale our initiatives.

For general affairs concerning the fate of CFS, the community is encouraged to engage with our point of contact through.

3. Our biggest efforts are currently being channeled to accomplish our first charitable donation. To start with, we have been assessing the best available scenario for our chosen charity to receive our crypto-based donation. Further to this, the specifics of our charity roadmap have been unveiled on 13 July 2021.

Q3, 2021 Overview

- » Launch of our official whitepaper
- » Establishment of corporate entity to fortify our public relations strategy and represent our global community
- » Re-branding of website, social media channels, and all external assets
- » Execution of our Corporate Social Responsibility: donations to the UN WFP, Action Against Hunger, as well as the Big Green Organization
- » Overarching activities in the NFT space which includes drops, auctions, and competitions
- » Confirmation of CoinGecko and CoinMarketCap listing
- » Crowdfunding for registration and listing in major exchanges

Q4, 2021 Status

The launch of our white paper provides a shared compass for the team and our community to follow the narrative. This is also our commitment to guide the CFS community in a more corporate approach.

The following are some details of where we stand in our Q4, 2021 goals:

1. Re-branding of all CFS assets is complete.
2. The CFS leadership team is currently formalizing a recruitment process to onboard professionals and talents from our community.
3. Our Corporate Social Responsibility will be performed in a multiple-pronged approach, which includes:
 - a. Weekly charity donation starting July 2021.
 - b. Voting rights to be handed to the community to choose our succeeding pool of charities to support, the details of our voting system will be communicated further.
 - c. CFS is officially listed in BitMart, a CEX.
 - d. We are listed in CoinGecko and CoinMarketCap.

In the 2022 target, we expect to achieve or address the following initiatives:

Q1

- » Forging of corporate partnerships
- » Launch of novelty merchandise for the CFS community
- » A global press release outlining confirmed launches in major exchanges

Q2

- » Diversification into real-world use cases

The CFS Ecosystem

CFS Token

Charity Fund Social (CFS) is a BEP20 token issued on the Binance Smart Chain with a total fixed supply of 1 Quadrillion (10^8) tokens. The idea of CFS as a token with charitable purposes entered a pre-sale campaign which was hosted by DxSale, a decentralized, cross chain, token management platform as a service. Further to this, CFS's initial token liquidity pool has been locked under, ensuring safety and security for our community.

PancakeSwap

PancakeSwap is a Binance Smart Chain-based Decentralized Exchange (DEX) for swapping BEP-20 tokens. To facilitate CFS's initial public offering, PancakeSwap offers our community the ability to exchange their BNB for CFS. In line with a pragmatic approach, CFS shall be listed into major exchanges in the near future.

Binance Smart Chain

The Binance Smart Chain (BSC) is a blockchain network that runs in parallel to the Binance Chain. In contrast to the Binance Chain, BSC features smart contract functionality and compatibility with the Ethereum Virtual Machine (EVM). The Binance Smart Chain offers our community the added interoperability of facilitating their transactions through Ethereum-based wallets, such as MetaMask. An added advantage of issuing CFS tokens on the BSC is that it offers our community an affordable blockchain experience through smaller transaction fees compared to the Ethereum Network.

Gnosis Safe Multisig

As an added security feature for the token/liquidity pool of CFS, the Gnosis Safe Multisig platform will be implemented. The Gnosis Safe Multisig is a smart contract wallet that requires a minimum number of people to approve a transaction before it can occur (M-of-N).

Tokenomics

The token's utility can be summarized into 3 fundamentals: **earn**, **burn** (through token extraction), and **charity**. These will be further explained in the proceedings of this chapter.

Earn

1. Token holders may not claim fees or any particular use of these fees from CFS or any member of the CFS Project team,
2. nor do they have any legal claims against any other third parties in this regard. Half of this fee is redistributed to the community on that exchange, proportional to the number of tokens they hold. This system incentivizes our community of owners, who in turn support CFS to make it a sustainable movement. Other details are outlined below
3. Half of the fee is redistributed to the community of holders, proportional to the CFS tokens they hold.
4. The other half is transferred back as liquidity provider tokens to the PancakeSwap (LP) Liquidity Pool.
5. On a weekly basis, 60% of newly accumulated LP tokens will be removed from the liquidity pool and the majority of these will be used as proceeds for our selected charities.

For CFS holders on a CEX, their tokens will be snapshotted daily, and an averaged reward will be disbursed on the 10th of every month.

6. What is unique about the CFS ecosystem is that it provides a good faith commitment to the speculative nature of cryptocurrency trading - both incoming and outgoing transactions reflect the philanthropic nature of CFS. An outgoing transaction contributes to the liquidity pool, where tokens are cleared and appropriated as proceeds for our selected charities.

Token Extraction

7. In the best interest of the community, burning has been established as part of a 7-day mining process. There are instances in which combustion raises the price floor. In CFS, burning has been integrated into a charity burning system. The original algorithm is as follows*:
8. Of the newly accumulated LP Tokens (10% fee) in a one-week cycle, 70% will be removed from the PancakeSwap Liquidity Pool: half is BNB, half is Stretch.
9. These tokens will then be used for our overall initiatives in public and transparent wallets, which will be tested by the community as we go further.

- In the future, a program of continuous evaluation will be established and the whole community will be involved in the decision-making process.

- Adaptability is an important security measure that the team promotes to put CFS in the best position for long-term growth and sustainability.

Charity-Burn

Of the extracted BNB:

50% - Charity (15% of this is reserved for long-term special charity projects: sponsoring disaster relief, building hospitals, etc)

20% - Stability Reserve

10% - Marketing

5% - Business Development

Of the extracted CFS:

65% - Burn

25% - Stability Reserve

10% - Giveaways

Token Figures

500,000,000,000

Total Supply at Launch

50,000,000,000

Pre-Sale Allocation

Any excess liquidity not needed for operational needs will be locked in DXSale, and results will be shared with the community.

Our Charities go to

As a community built on Corporate Social Responsibility, CFS will continuously integrate the charitable aspect in all of our tangible and intangible services and use cases. Going forward, our selected charities will continue to grow as we get more input from the community. An appropriate forum and voting system will be put in place. As of Q3 2021, the following charities will be part of the Extended journey:

United Nations World Food Programme

The World Food Programme is the leading humanitarian organization saving and transforming lives by delivering food assistance in emergencies. They also work with communities to improve nutrition and build resilience.

Action Against Hunger

Action Against Hunger is the world's hunger specialist that leads global efforts to save hundreds of thousands of lives of undernourished children. The organization is committed to helping all children access the urgent hunger care they need to survive.

Big Green Organization

The Big Green is a nonprofit organization that was started in 2011. Big Green pledges to work as allies and advocates for marginalized communities. They aim to do this by constant education and support initiatives to increase awareness about racial biases.

Children International

Children International is a leading humanitarian organization focused on helping children break the cycle of poverty. Children International aims to help kids graduate healthy, educated, empowered, and employed.

CFS's highest aim is to be the official partner of charitable organizations in the cryptocurrency space. We aim to educate them about the digital world of crypto as well as guide them in this journey to bridge the real world and digital aspect of charity.

Companion Target Guide

CFS creates funds for charity, but needs more community support and other ways to raise money and awareness for charitable causes.

NFT Drops for Charity

In recent months, Non-Fungible Tokens (NFTs) have taken the world by storm. NFT is multimedia art encoded in the blockchain.

We'll be joining soon, a commitment we'll always uphold.

Gaming For Charity

CFS will aim to host video game marathons, speed races, tournaments and other special events. The obvious goal of these events is to raise money for charity, while engaging our community dynamically and attracting new people to our community.
